Abstract: Reclamation is responsible for recreation development at all of its reservoirs. Presently, there are over 200 designated recreation areas on our lands within the 17 Western States hosting approximately 30 million visitors annually. As a result, we must be able to respond to emerging trends, changes in the demographic profile of users, changing values, needs, wants, and desires, and conflicts between user groups. Statistically valid and up-to-date data derived from the user is essential to developing and providing recreation programs relevant to today's visitor. Reclamation is requesting re-approval for the collection of data from recreational users on Reclamation lands and waterbodies. To meet our needs for the collection of visitor use data, we will be requesting OMB to authorize a two-part request: survey questions for our regional offices to choose from, and a survey form template. This will allow for a custom designed survey instrument to fit a specific activity or recreation site. The custom designed survey would be created by extracting questions from the approved list of survey questions that are applicable to the recreation area and issue being evaluated. Only questions included in the pre-approved list of survey questions will be used.

Title of Collection: Recreation Visitor Use Survey.

OMB Control Number: 1006-0028.

Form Number: None.

Type of Review: Revision of a currently approved collection.

Respondents/Affected Public: Respondents to the surveys will be members of the public engaged in recreational activities on Reclamation lands and waterbodies. Visitors will primarily consist of local residents, people from large metropolitan areas in the vicinity of the lake/reservoir, and people from out of state.

Total Estimated Number of Annual Respondents: 556.

Total Estimated Number of Annual Responses: 556.

Estimated Completion Time per Response: 20 minutes per survey. (An average of 20 questions will be used on each survey; each question will take 1 minute to complete on average.)

Total Estimated Number of Annual Burden Hours: 185.

Respondent's Obligation: Voluntary.
Frequency of Collection: On occasion. Varies by survey.

Total Estimated Annual Non-hour Burden cost: 0.00

In addition, there are an estimated 140 number of contacts who will not respond. These non-respondents account for 1 total burden hour per year.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*)

Dated: December 11, 2017.

Ruth Welch,
Director, Policy and Administration.
